

About GurujiWorld

GurujiWorld Technologies Pvt. Ltd. is an Indian eLearning Company, Located in Pune, Maharashtra, which has a mission to **Simplify Learning** process for individuals across the world by providing effective content & technology solutions, seamless learning delivery mechanisms and thoughtful services.

In pursuit of this mission, we have completed development of Computer Based Training (CBT) products under the brand Guruji, catering to needs of the individuals and institutions. We are in the process of developing many more learning products. We have created a mark with our products and have already reached a customer base of 50,000 users spread over 2 states in India. This highlights the acceptance level of our products.

We are a Managed ISV for Microsoft Corporation (India) Pvt Ltd. We are proud to be part of Microsoft's Unlimited Potential Program and are sure that together with Microsoft we are set to shape the future of e-Ready India. Our products have been selected as a part of content that will be delivered in this initiative in India.

Our continuous endeavor is to improve learning tools with use of innovative technology, and make learning experience enjoyable, cost-effective and user-friendly. Our company is committed towards innovations in learning technology through continuous investment in its research and development activities for new product development and use of newer learning technologies.

Guruji CBT Product Features

GurujiWorld CBT Products are developed keeping in mind the fast pace of changing technology and the emerging need for Computer literacy skills, Spoken English and Vocational skills. So even if you have never switched on a computer, GurujiWorld CBT will teach you all you need to know about computers and related technologies. GurujiWorld CBT Products fit the needs of every person (Students, People in any profession, People working from home, House-makers) around the globe.

Why Guruji CBT?

GurujiWorld CBT Products are developed after doing a thorough research on the learning requirements of a naive user. Before development of GurujiWorld CBT Products, certain focused discussions were conducted with naive users from different streams to find out what and how they would prefer to learn using a GurujiWorld CBT Product. All the findings and feedbacks were converted into product requirement specifications and the products were developed based on these specifications and requirements. This has made GurujiWorld CBTs one of the most feature rich tutor products available in India.

Below is the list of some of the striking features of GurujiWorld CBTs:

1. Highly interactive and simple GUI screens
2. Complete Audio-Visual support throughout
3. Easy Navigation through the Guruji App screens
4. True Interactive & Simulated application
5. Based on the **DO-IT-YOURSELF** philosophy
6. Hands-on simulation lead to increased subject Retention
7. Training on Demand & Repetitive learning
8. Audio as well as Text based training
